

Practical Hints

First Aid Kit

The first aid kit is stored in the hat shelf at the rear.

Luggage or Ski Racks

We recommend the use of drip rail mounted ski and roof racks. These racks do not require additional supports (suction cups or legs). Such supports may lead to marring of the paint or even denting of the roof if excessive weight is placed on the rack. Your MERCEDES-BENZ dealer can give further advice.

Spare Wheel, Jack, Vehicle Tool Kit

The spare wheel (1), jack (2) and the tool kit are stored in a compartment below the trunk floor.

Fold back trunk floor mat and remove cover plate.

Warning!

The jack is designed exclusively for jacking up the vehicle at the jack tubes provided on either side of the vehicle. Use the jack only to lift the vehicle during a tire change. Never get beneath the vehicle while it is supported only by the jack. Jack stands must be used when working under the vehicle.
